EDUCATION

Bachelor of Technology(IT), Dr. Ambedkar Institute of Technology for Handicapped, Kanpur   2020-2024
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Oops, DBMS.   **CGPA: 7.85**

Intermediate, SVM Kadipur Sultanpur   2017 - 2019

SKILLS

Programming Language	C++, JavaScript, Python
Web Technologies	HTML, CSS, React.Js, Django, Node.Js
Databases	MongoDB, PostgreSQL

EXPERIENCE

Backend Development Intern   April 2023 - June 2023
Company Name   Hoogaaa technology

- Completed a comprehensive backend development internship, gaining hands-on experience with MERN stack and Django projects.
- Proficiently managed databases using MongoDB and PostgreSQL , ensuring efficient data storage and retrieval, and implemented robust user authentication and authorization measures for enhanced data security.

Web Development Intern   May 2023 - June 2023
Company Name   *Oasis Infobyte*

- Demonstrated creativity and design skills by contributing to the "Portfolio" and "Landing-Page" projects, showcasing professional aesthetics and intuitive user interfaces.
- Implemented responsive design principles, ensuring seamless user experiences across different devices and screen sizes.

PROJECTS

SecretSafe "SecretSafe" is a cutting-edge web application developed using the MERN stack and Google OAuth for secure authentication. It provides a safe and user-friendly platform for users to store their sensitive secrets, ensuring maximum confidentiality and ease of access. (Github)

Blogify "Blogify" is a sophisticated backend project that focuses on effective database management to enable users to create and manage their blogs effortlessly. This platform offers content creators a professional and seamless experience, providing robust tools for organizing, storing, and retrieving blog content securely. (Github)

WeatherWise "WeatherWise" is a cutting-edge frontend project that leverages the power of HTML, CSS, and JavaScript to provide users with up-to-date weather information seamlessly. This user-friendly application utilizes API integration to fetch real-time weather data, offering an immersive and informative weather forecasting experience.(Github)

EXTRA-CURRICULAR ACTIVITIES/ACHIEVEMENTS

- Solved over 250+ Data Structures and Algorithms problems on platforms like GFG, LeetCode and CodeStudio demonstrating strong problem-solving skills and proficiency in algorithmic coding.
- Awarded 1st Place in a College-Level Hackathon-Ideathon - Demonstrated exceptional problem-solving, teamwork, and innovative thinking skills.
- Successfully hosted and anchored the prestigious college annual event "Sakhanaad 2022," engaging a diverse audience with seamless event management and captivating stage presence.
